- INTRODUCTION -

Our wine philosophy is straightforward. In terms of style, we look for wines of balance, wines that are true to type (representative of their origins), and wines that will complement our style of food. In terms of pricing, our aim is to offer excellent value at each price point.

To help select our wines, we work closely with our wine consultant/suppliers, one of whom is Miles Corish (Master of Wine). Miles is one of only 322 global Masters of Wine and, over the last 20 years, has developed relationships with a strong portfolio of small, quality-focused wine producers. Wherever possible, we prefer to offer these wines to our customers as, in our opinion, not only do smaller producers inevitably offer a superior combination of quality and value for money, many of those that appear in our list are benchmark producers for their region.

We have taken much pleasure in creating our wine list and we have a number of wines which we regard as hidden gems, such as our “Sommelier Recommendation”. We are lucky to be able to offer the “Luis Canas” range from Spain, one of our favourite producers.

We do hope that you enjoy our selection and welcome your comments and feedback.

Jamie & Jenna

Vintages and prices are subject to change without notice.

As we prefer to work with smaller wine producers, there are the odd occasions when a wine is unavailable, although we aim to keep this to a minimum.
